## Enum Constant Details

### OWNER

```
public static final TripMemberRole OWNER
```

### EDITOR

```
public static final TripMemberRole EDITOR
```

### VIEWER

```
public static final TripMemberRole VIEWER
```

## Method Details

### values

```
public static TripMemberRole[] values()
```

Returns an array containing the constants of this enum class, in the order they are declared.

#### Returns:

an array containing the constants of this enum class, in the order they are declared

### valueOf

```
public static TripMemberRole valueOf(String name)
```

Returns the enum constant of this class with the specified name. The string must match *exactly* an identifier used to declare an enum constant in this class. (Extraneous whitespace characters are not permitted.)

#### Parameters:

name - the name of the enum constant to be returned.

#### Returns:

the enum constant with the specified name

#### Throws:

`IllegalArgumentException` - if this enum class has no constant with the specified name

`NullPointerException` - if the argument is null

### getDescription

```
public String getDescription()
```

### hasPermission

```
public boolean hasPermission(TripMemberRole required)
```

Verifica si este rol tiene un permiso específico.
