Constructor Details

TripCreateRequestDTO

```
public TripCreateRequestDTO()
```

TripCreateRequestDTO

```
public TripCreateRequestDTO(String☒ title,
                            String☒ destination,
                            String☒ description,
                            LocalDate☒ startDate,
                            LocalDate☒ endDate,
                            BigDecimal☒ budget)
```

TripCreateRequestDTO

```
public TripCreateRequestDTO(String☒ title,
                            String☒ destination,
                            String☒ description,
                            String☒ imageUrl,
                            LocalDate☒ startDate,
                            LocalDate☒ endDate,
                            BigDecimal☒ budget)
```

Method Details

getTitle

public [String](#) getTitle()

setTitle

public void setTitle([String](#) title)

getDestination

public [String](#) getDestination()

setDestination

public void setDestination([String](#) destination)

getDescription

public [String](#) getDescription()

setDescription

public void setDescription([String](#) description)

getImageUrl

public [String](#) getImageUrl()

setImageUrl

public void setImageUrl([String](#) imageUrl)

getStartDate

public [LocalDate](#) getStartDate()

setStartDate

public void setStartDate([LocalDate](#) startDate)

getEndDate

public [LocalDate](#) getEndDate()

setEndDate

public void setEndDate([LocalDate](#) endDate)

getBudget

public [BigDecimal](#) getBudget()

setBudget

```
public void setBudget(BigDecimal budget)
```
